

Nazareth Hospital's Acute Rehabilitation Unit—A Leader:

- Nationally accredited by the Commission on Accreditation of Rehabilitation Facilities (CARF) since 1996
- Regional leader in clinical outcomes
- Individualized Physical, Occupational, and/or Speech therapy for all patients
- Weekly team meetings keep patients and their family members involved in treatment process
- Private rooms available

Nazareth Hospital's Acute Rehabilitation Unit is a hospital-based, CARF-accredited 20-bed unit delivering comprehensive rehab services to help patients reach their maximum potential. Led by rehab physiatrists, our team provides patients with PT, OT, speech, rehab nursing, care management, supportive services, and access to other medical specialists as needed. Our patients also have access to the full breadth of medical services offered at Nazareth Hospital.

Serving patients suffering from disabling illness or injury:

- Stroke
- Parkinson's Disease
- Multiple sclerosis (MS)
- Amputations
- Prosthetic training
- Hip fractures
- Multiple trauma
- Major Joint Replacements
- Neurological disorders
- Cardiac disease
- Cancer
- Non-traumatic spinal cord injury
- Non-traumatic brain injury
- Other conditions
