Trinity Health

Start by connecting your tablet to "CHE-CLINICAL" network in your WiFi listing.   This is found under the "Settings" icon and WiFi section. If you see "CHE-GUEST" or "Guest" in your Wi-Fi list, you may select them and choose the "forget" or Delete option if you do not plan to use them in the future.

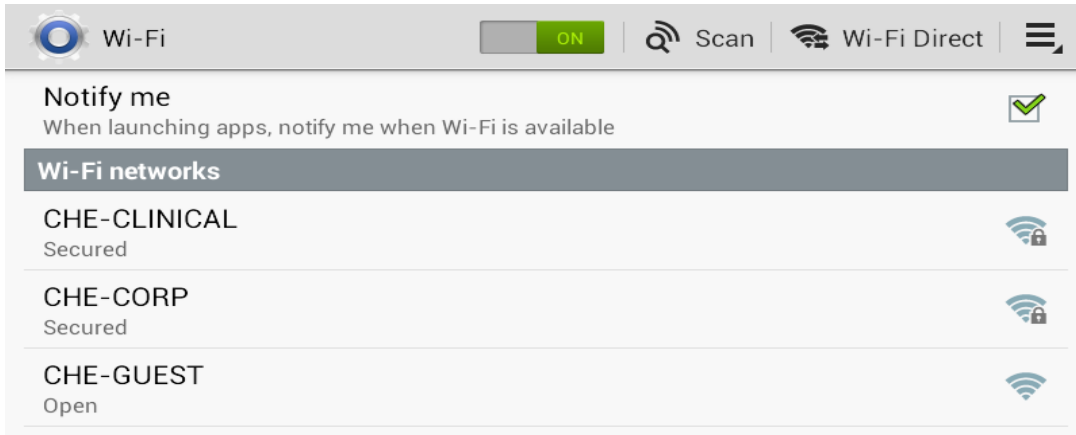

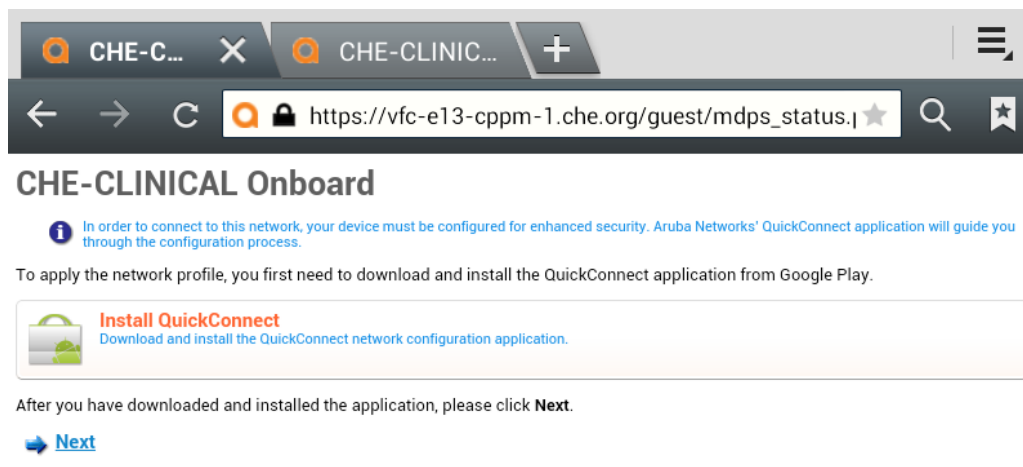

After you select CHE-CLINICAL, you will be prompted for Authentication.
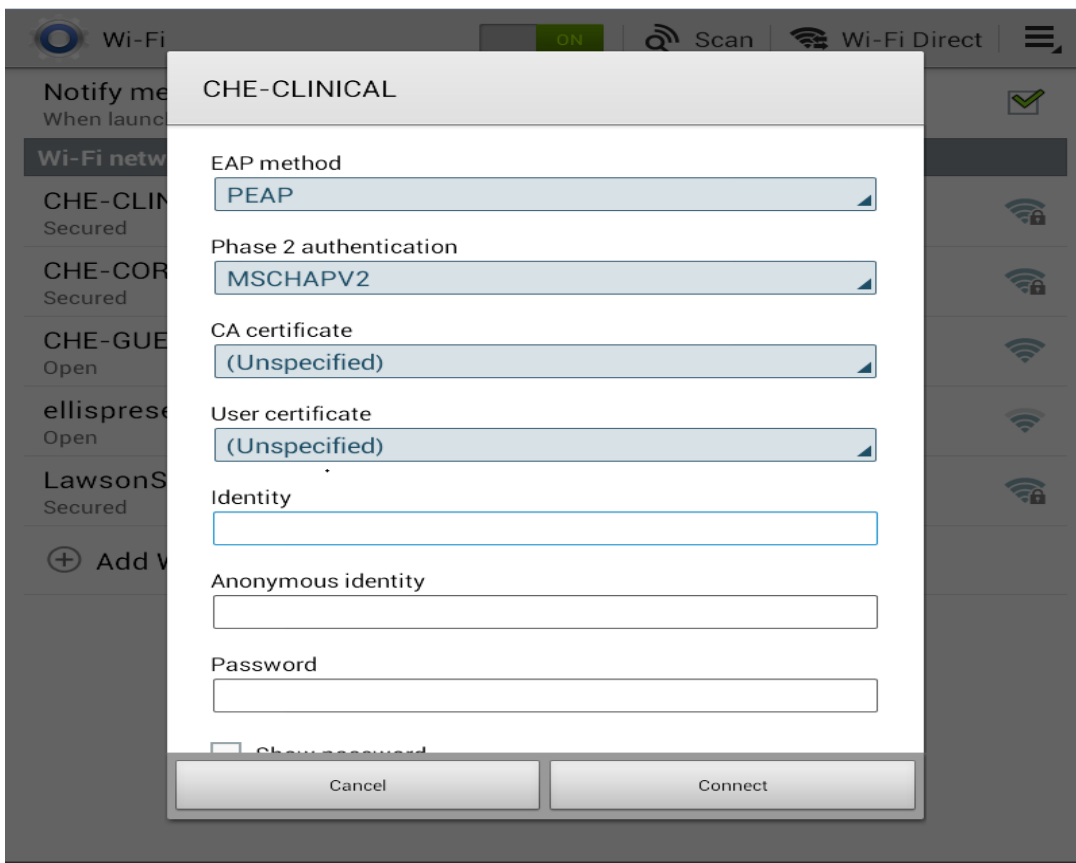

Enter your Identity (ONE domain user ID) and your Password. If successful, you will display as connected (see below).

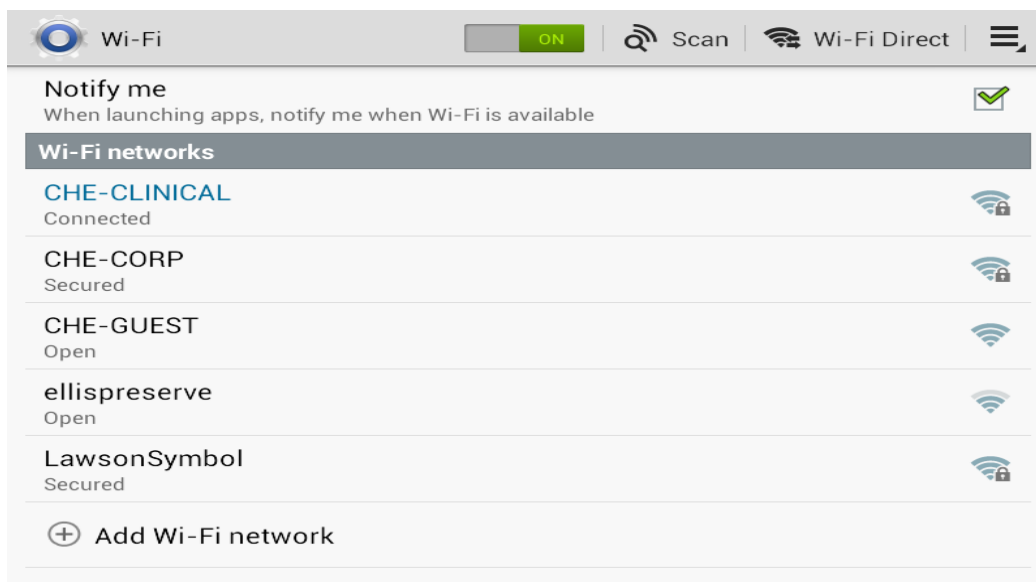

Once Connected to the "CHE-CLINICAL" network you'll need to open a browser and goto your favorite website like http://mlb.com (not google) ☺. You will be redirected the web page shown below.

If you already have Aruba ClearPass QuickConnect app installed, you can press **Next**. If prompted to apply an update, download and install the update then press **Next**.
If you do not have the ClearPass app installed, select Install Aruba ClearPass QuickConnect app then press **Next**. You will be directed to the following page for the install.
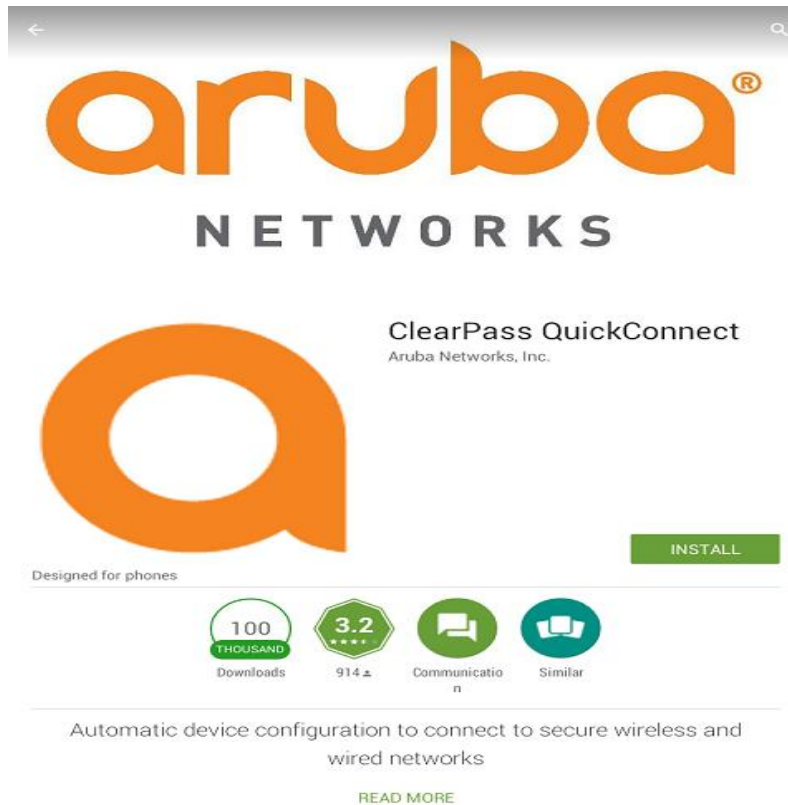

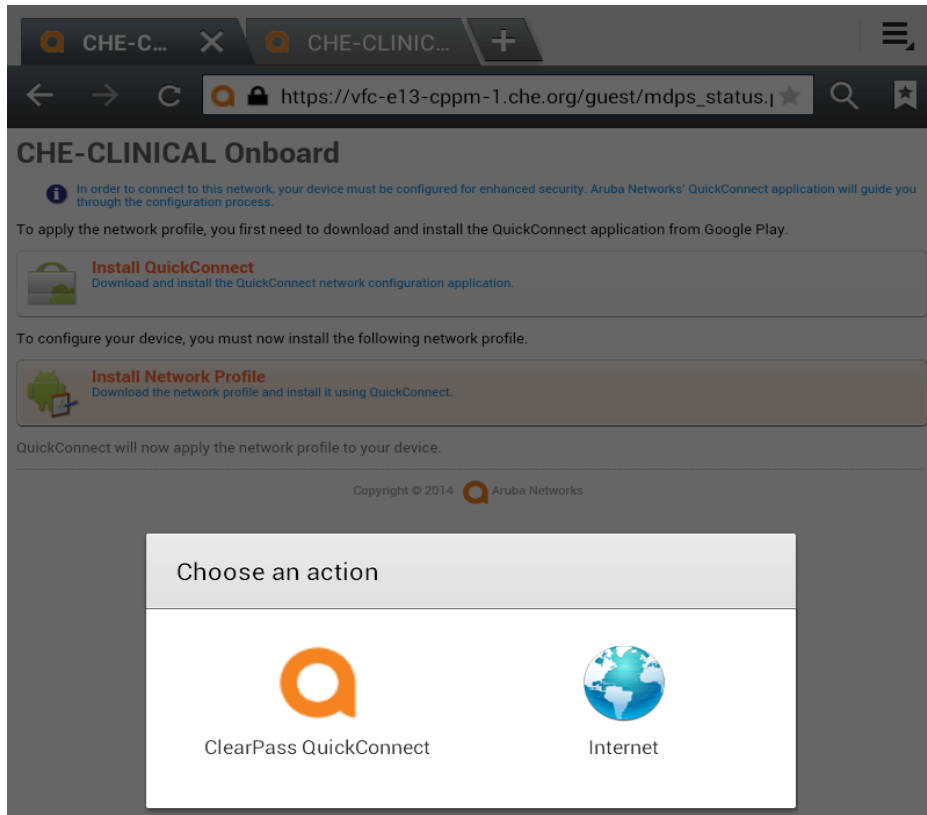

After the app is installed and you've pressed **Next**, Select Install Network Profile
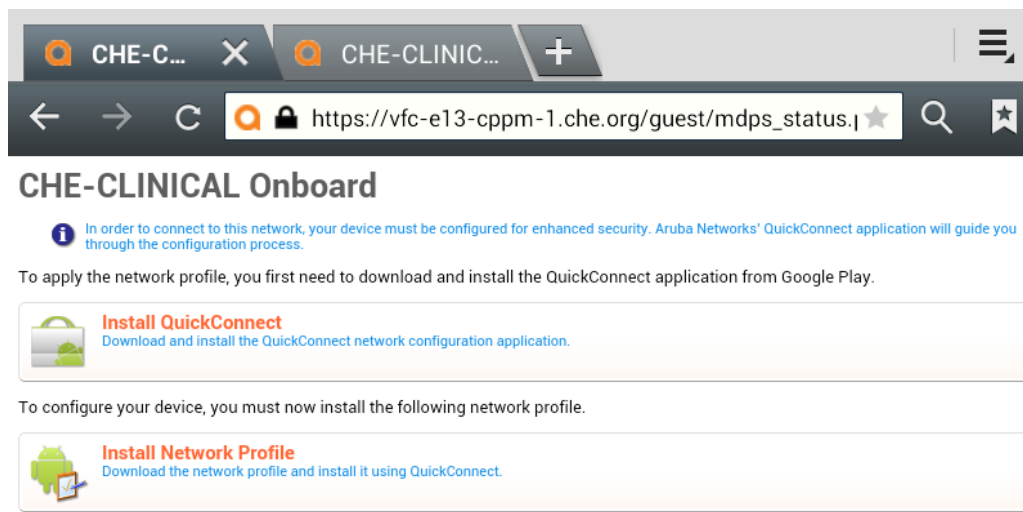

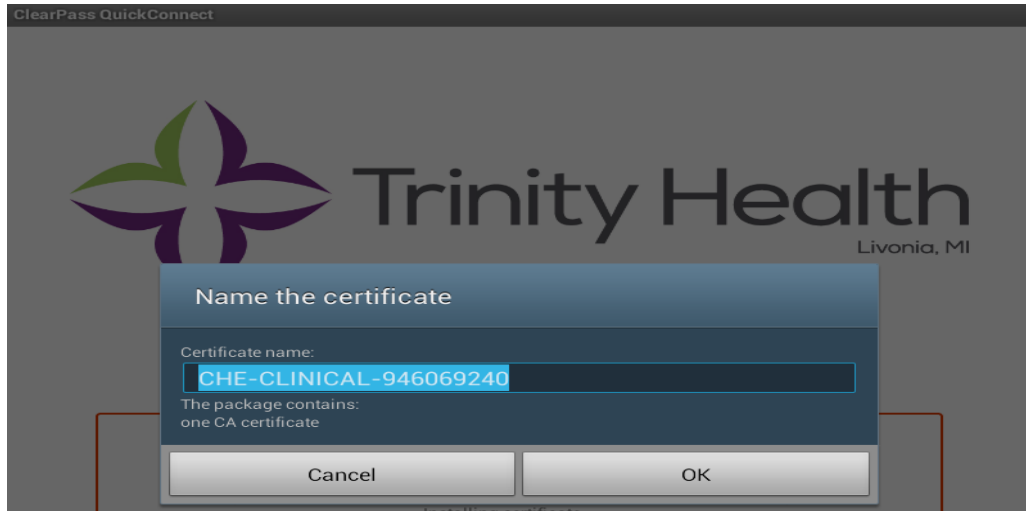

Select ClearPass QuickConnect

Enter your Network or Active Directory Username and Password.
(Your PC login ID and password).
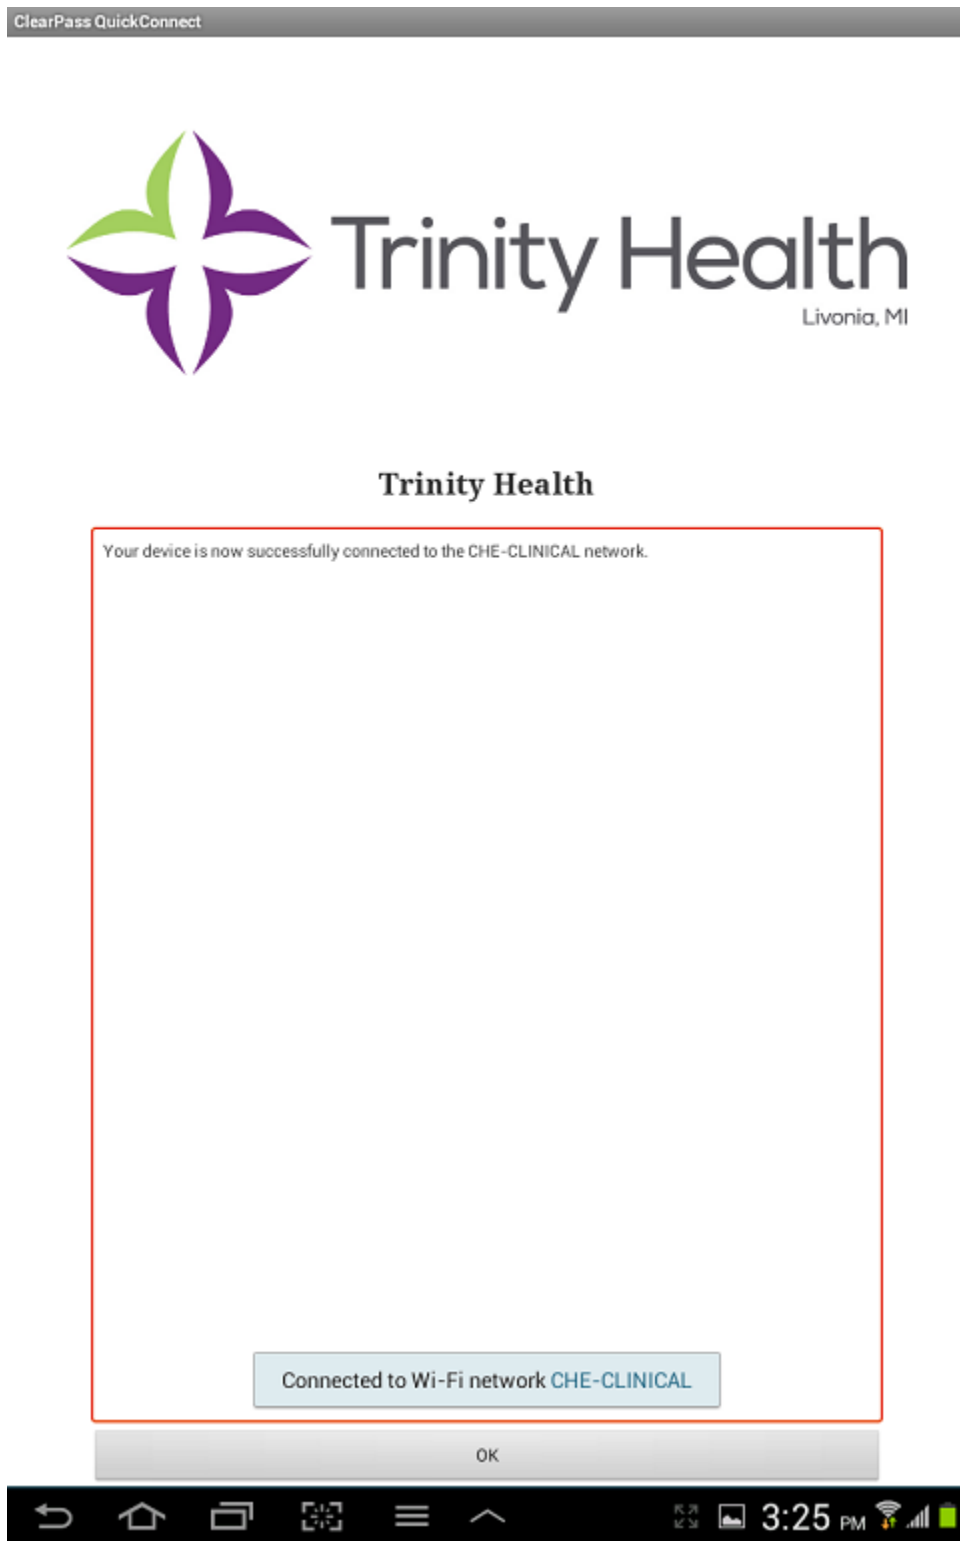

After hitting "Log In" you should see the following…

Click "OK" when the Name the certificate box appears.   Do not change the name.

You should now see the "Starting Provisioning" process:

After the configuration is done you should see the following screen.   Hit "OK" at the bottom.

ClearPass QuickConnect

Trinity Health

Your device is now successfully connected to the CHE-CLINICAL network.

Connected to Wi-Fi network CHE-CLINICAL

OK

3:25 PM

To confirm connectivity to CHE-CLINICAL, go back to your WiFi listings (Under the Settings icon) and look at the CHE-CLINICAL status.

You should see a Status of "Connected".

<u>Success!</u>

You should now be on the CHE-CLINICAL wireless network.
